

Fund update

Mercer Global Listed Real Estate Fund
Mercer Investment Funds

Quarter ending 30 June 2026

This fund update was first made publicly available on: 29 July 2026

What is the purpose of this update?

This document tells you how the Mercer Global Listed Real Estate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mercer (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in a global portfolio of property securities listed on stock exchanges around the world. It aims to generate medium to high returns over the long term by investing in a broad range of property regions, sectors and securities through a single fund. Environmental, Social and Governance characteristics are integrated into the investment process. The fund aims provide a Gross Return¹ above the FTSE EPRA/NAREIT Developed Total Return Index with net dividends reinvested (100% hedged to the NZD on an after-tax basis) on a rolling three-year basis.

Total value of the fund	\$72,508,218
The date the fund started	29 November 2007

What are the risks of investing?

Risk indicator for the Mercer Global Listed Real Estate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return² <i>(after deductions for charges and tax)</i>	0.87%	14.18%
Annual return² <i>(after deductions for charges but before tax)</i>	1.82%	15.11%
Market index annual return² <i>(reflects no deduction for charges and tax)</i>	2.05%	13.20%

The market index annual return is based on the FTSE EPRA/NAREIT Developed Total Return Index with net dividends reinvested (100% hedged to NZD on an after-tax basis). Additional information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual Return Graph³

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mercer Global Listed Real Estate Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges	1.38%
Which are made up of:	
Total management and administration charges	1.38%
Including:	
Manager's basic fee (excluding GST ⁴)	1.25%
Other management and administration charges (including GST)	0.13%
Total performance based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Mercer Property and Infrastructure Funds at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Ben had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of \$1,418.00 (that is 14.18% of his initial \$10,000). Ben also paid \$0.00 in other charges. This gives Ben a total return after tax of \$1,418.00 for the year.

What does the fund invest in?

Actual investment mix⁵

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Further information

You can also obtain this information, the PDS for the Mercer Property and Infrastructure Funds and some additional information from the offer register at www.disclose-register.companiesoffice.govt.nz.

Notes

1. Gross Return is the return before the deduction of tax, expense and fees and assumes all income is reinvested.
2. These returns are for the periods ending 30 June 2026.
3. The bar graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or tax are deducted.
4. GST was charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry up until 31 March 2026. From 1 April 2026 GST is not charged on management fees in accordance with Inland Revenue's Interpretation statement IS 25/05.
5. For the reporting of the types of assets under "Actual investment mix", foreign exchange hedging positions have been assigned to the asset class to which they relate.
6. The Top 10 investments have been calculated excluding operational cash and derivatives.
