

SBS Wealth KiwiSaver Scheme Other Material Information

As at 7 August 2026

This is a replacement Other Material Information document ("OMI") for the OMI dated 27 November 2025.

SBS Wealth Limited is the issuer and manager of this offer. SBS Wealth Limited is a wholly owned subsidiary of Southland Building Society, operating as "SBS Bank". This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. SBS Wealth Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

7. Who is involved?	18

Investments in the Scheme do not represent deposits or liabilities of SBS Wealth Limited or its parent SBS Bank, Southland Building Society (or any other member of the SBS Bank group) and are subject to investment risk. The investment risk includes possible delays in repayment and loss of income or contributions invested. Historical returns are no guarantee of future performance. The principal and returns of the Scheme (including its capital value and performance) are not guaranteed or secured in any way by SBS Wealth Limited or by its parent SBS Bank (or any other member of the SBS Bank group), the Government, or any other person.

Introduction

This document contains additional information about the SBS Wealth KiwiSaver Scheme (“**Scheme**”) to help you make your investment decision.

This document should be read alongside the Product Disclosure Statement (“**PDS**”) for the SBS Wealth KiwiSaver Scheme. The PDS and this document can be found at www.sbswealth.co.nz (search for SBS Wealth KiwiSaver Scheme).

The Statement of Investment Policy and Objectives (“**SIPO**”), the Scheme’s trust deed (“**Trust Deed**”) and other useful information about this offer can also be found at www.sbswealth.co.nz.

This Other Material Information Document (“**OMI**”) has been prepared to meet the requirements of section 57(1) (b)(ii) of the Financial Markets Conduct Act 2013. All legislation referred to in this OMI can be viewed at www.legislation.govt.nz.

1. How does this investment work?

The Scheme is a trust and is governed by a Trust Deed between SBS Wealth Limited (“**SBS Wealth**”, “**we**”, “**us**”, “**Manager**”) and Trustees Executors Limited (“**Supervisor**”), and a registered KiwiSaver Scheme under the Financial Markets Conduct Act 2013 (“**FMCA**”).

The Scheme currently offers four Funds:

- SBS Wealth Focused Growth Fund (invests primarily in a concentrated portfolio of global shares and is our highest risk option);
- SBS Wealth High Growth Fund (invests primarily in shares, both domestically and globally, and is our high risk option);
- SBS Wealth Income Fund (invests predominantly in income producing assets and is our low risk option); and
- SBS Wealth Cash Fund (invests entirely in income producing assets and is our lowest risk option).

The Scheme is a pooled investment. By investing, you are pooling your investment with other investors. This means you may have access to a wider range of investment choices and greater buying power than you would usually have if investing alone.

Units in the relevant Fund(s) are issued to reflect your contributions and other amounts received for you (such as the Government contributions, if you qualify). Each unit has a price calculated each business day based on the value of the fund’s assets at the time, which may go up or down.

The Scheme is treated as a single fund. This means the assets of the Scheme are available to meet the liabilities of all of the funds.

All comments in this OMI and in the PDS should be read in conjunction with the terms of the Trust Deed. In the event of any inconsistency, the terms of the Trust Deed prevail.

Joining the Scheme

You can join the Scheme online at www.sbswealth.co.nz; or by completing an application form. You are eligible to join if you are already a member of another KiwiSaver scheme or someone who is:

- A New Zealand citizen or, entitled to live in New Zealand indefinitely; and
- Normally living in New Zealand or, where eligible, a State Services employee serving overseas.

You cannot join KiwiSaver if you have a temporary, visitor, work or student visa. If you were born in the USA and/or are a USA tax resident, please seek tax advice before applying.

If you do not select a Fund, or a combination of Funds, your contributions will be invested in the Lifestages option relevant to your investment time horizon.

Employer chosen scheme: If your employer has chosen the Scheme as their preferred KiwiSaver scheme, and you are not already a member of KiwiSaver, you will be automatically enrolled in the Scheme when you first start employment and your contributions will be invested in the Lifestages option relevant to your investment time horizon. If you have been automatically enrolled, you can choose to opt out between 14 to 56 days from the date you started your new job. You will need to apply to Inland Revenue to do so.

Making investments

Employee contributions: If you are an employee earning salary or wages, you will need to make regular contributions (unless you are on a savings suspension).

As at the date of this OMI, you can choose to contribute 3.5%, 4%, 6%, 8% or 10% of your gross (before tax) salary or wages, plus any other remuneration such as bonuses and overtime.

If you do not choose a contribution rate, you will contribute at a rate of 3.5%. This will increase to 4% from 1 April 2028.

You can apply to Inland Revenue to temporarily reduce your contribution rate to 3%. This applies for up to 12 months, and you can reapply or cancel at any time.

You can change your contribution rate between these percentages, or even take a savings suspension, from time to time.

Your employer will normally deduct your contributions automatically from your salary or wages and pay them directly to Inland Revenue who will pass them on to the Scheme (with interest, if any).

Once you've reached the 'Qualifying age' you can opt out of this requirement ([see page 5](#)).

Voluntary contributions: All members (including if you are self-employed or not earning) can also make voluntary contributions. You can make voluntary lump sum payments direct to your Scheme account or via Inland Revenue. There is a minimum contribution level of \$50 for an initial lump sum contribution, but no minimum contribution for regular and ad hoc contributions.

Regular contributions: You can set up a regular payment at any time into the Scheme via online banking. Deposit instructions are available at www.sbswealth.co.nz. Alternatively, SBS Wealth are set up as a registered bill payee with most New Zealand banks. By searching for SBS Wealth KiwiSaver Scheme, you will find that our bank account details are preloaded for your convenience.

Transferred contributions: You may also be able to transfer savings from an existing New Zealand or overseas superannuation scheme. To transfer from an Australian complying superannuation fund, you will have permanently immigrated to New Zealand.

Employer contributions: As at the date of this OMI, your employer is generally required by law to make regular contributions to your KiwiSaver account unless:

- You are under 16;
- You have reached the age of 65;
- You are on a savings suspension or are not contributing;
- You have made a life-shortening congenital conditions withdrawal; or
- They are already making contributions for your benefit to another retirement scheme, which meet their employer contribution obligations.

As at the date of this OMI, your employer must contribute a minimum of 3.5% of your gross (before tax) salary or wages. This will increase to 4% from 1 April 2028.

The employer contributions will have employer superannuation contribution tax deducted from them. Your employer can also make additional voluntary contributions through Inland Revenue to your KiwiSaver account.

Government contribution: Under current law (while you contribute and are eligible), the Government will make an annual contribution to your account. This is currently 25c for every dollar you contribute, up to a maximum Government contribution of \$260.72 a year (matching member contributions of \$1,042.86 a year).

Government contributions are calculated annually based on the total employee and voluntary contributions you have made during the last year (1 July to 30 June) and the number of days occurring that year that you were eligible to receive a Government contribution.

You will be eligible if:

- You are at least 16 years old and have yet to reach 65
- You earn a taxable income of \$180,000 or less per annum; and
- You mainly live in New Zealand.

Savings suspension: You can suspend your employee contributions at any time, after you have been a member for one year, for a period of three months to one year. If you have been a member for less than one year, you may apply to Inland Revenue for an early savings suspension on the grounds of financial hardship. If you do so, your employer will not be required to contribute during the period.

Withdrawing your investments

If you are entitled to withdraw from the Scheme under the relevant provisions of the KiwiSaver Act and wish to withdraw, you may do so by providing us with a withdrawal request. A withdrawal request needs to be in writing, on the relevant form (all forms can be found on our website, www.sbswealth.co.nz), signed by you or your duly authorised agent, or in such other manner that is acceptable to us, together with the required supporting documents where requested. A withdrawal request must specify the dollar amount to be withdrawn, for any withdrawal request other than a full or maximum withdrawal. Any partial withdrawal will be deducted proportionately from each Fund the member is invested in according to their current investment profile. Unless we agree otherwise a withdrawal request is irrevocable once given, except where withdrawals are suspended.

A withdrawal from the Scheme is subject to the deduction of any duty or tax payable, the payment of any applicable fees (including any exit fees), charges, penalties and other amounts which comply with all applicable legislation. Where a withdrawal request is given for a dollar sum, these will be deducted by grossing up the number of units to be cancelled, unless that would contravene the required minimum Scheme balance. In this instance you will be notified before payment is made. Currently we do not charge an exit fee.

If you have ever been adjudicated bankrupt or admitted to a No Asset Procedure, withdrawing your investments may make your investments and withdrawn funds accessible to an Official Assignee under the New Zealand Insolvency Act 2006.

A withdrawal request must comply with any minimum requirements set by us from time to time (unless it is for a full withdrawal) and you must continue to maintain any required minimum Scheme balance. A partial withdrawal must be for at least \$100 and must not reduce your remaining balance in the Scheme below \$500 or, if the partial withdrawal is made for the purpose of a first home purchase, below \$1,000.

In addition, if you reach the “Qualifying Age”, you may set up a withdrawal to be paid to you on a regular basis. Regular withdrawals can be made on a fortnightly or monthly basis and must be for a minimum amount of \$100 per withdrawal.

All withdrawal requests must provide such evidence as we or the Supervisor (as applicable) require establishing entitlement to withdraw. In some circumstances the Act requires specific information to be provided as part of a withdrawal request.

The KiwiSaver Act permits withdrawals (subject to various terms and conditions) if you:

- Reach the Qualifying Age;
- Purchase a first home;
- Suffer significant financial hardship;
- Suffer a serious illness;
- Suffer from a life-shortening congenital illness;
- Permanently emigrate;
- Have New Zealand tax or student loan liabilities arising on a transfer from an overseas pension scheme;
- Are instructed to by a court order, or
- Die.

Qualifying age: This is the age at which you qualify for New Zealand Superannuation, currently 65.

First home (or previous home owner) purchase: You can apply to make a first home withdrawal if you meet all of the following requirements (or as amended by the KiwiSaver Act 2006):

- You have been a KiwiSaver member for three years or more;
- You have never made a withdrawal from a KiwiSaver scheme for purchasing a home before;
- You have a minimum account balance of \$1000;
- The property is intended to be your main home (or you are buying land with the intent to build on it or relocate a home on it) and live in it for at least 6 months; and
- You have never held an estate in land (or if you have owned a house or land before but Kainga Ora –Homes and Communities determines that you are in a similar financial position to a first home buyer).

Further details regarding second chance home withdrawal eligibility can be found at www.kaingaora.govt.nz/home-ownership.

Please note that:

- You can only make a withdrawal once and it can't be after the settlement date;
- If you make a withdrawal towards the deposit on your first home, ensure you are drawing sufficient funds to meet your settlement obligations. You cannot make another withdrawal again at settlement;
- Your completed application form and all supporting documentation must be received at least 15 business days before either your deposit payment is due or settlement date. We cannot pay out after settlement.

If you require assistance completing this form then please contact us on 0800 727 935 or email us at contact@sbswealth.co.nz.

Serious illness: You can apply to the Supervisor to withdraw some or all of your investment if you have an illness, injury or disability that means:

- You are totally and permanently unable to engage in work that you're suited for because of your experience, education, or training (or any combination of those things); or
- Poses a serious and imminent risk of death.

The Supervisor must be reasonably satisfied you are suffering from serious illness.

The Supervisor can require any medical matter asserted in support of the application for withdrawal to be verified by medical evidence. The Supervisor can also require any other documents, or information produced in support of the application to be verified by oath, statutory declaration, or otherwise.

Significant financial hardship: You can apply to make a Significant Financial Hardship Withdrawal if you meet any of the following requirements:

You cannot pay for—

- Minimum living expenses; or
- The mortgage repayments on your principal family residence resulting in the mortgagee seeking to enforce the mortgage on the residence; or
- The cost of modifying your residence to meet special needs arising from your or a dependant's disability; or
- The cost of medical treatment for an illness or injury to you or a dependant; or
- The cost of palliative care for yourself or your dependant; or
- The cost of a funeral for a dependant.

The Supervisor must determine that you are suffering or are likely to suffer significant financial hardship.

The Supervisor must be satisfied that reasonable alternative sources of funding have been explored and exhausted. The Supervisor can also direct that the amount withdrawn be limited to a specified amount that, in the Supervisor's opinion, is required to alleviate the particular hardship. The application must be in a form required by the Supervisor and must include a completed statutory declaration in respect of your assets and liabilities. The Supervisor may require other documents in support of an application.

If you have been a member for less than 2 months, you will need to apply directly to Inland Revenue.

Life-shortening congenital condition: You may be able to withdraw your investments from the Scheme if you have a life-shortening congenital condition.

Please note that: if you make a withdrawal under the life-shortening congenital condition category, you will be treated as if you have reached qualification age.

This means that after withdrawal of funds, you will no longer be eligible to receive:

- Crown contributions; or
- Compulsory employer contributions in relation to your future contributions, if any.
- This withdrawal may also impact any social assistance that you are currently receiving, if any.

Your withdrawal application must include:

- A completed statutory declaration to the effect that you have a life-shortening congenital condition; and
- This must be certified by a registered medical practitioner with the Medical Council of New Zealand that has recently given you a full medical examination.

The Government's list of recognised life-shortening congenital conditions currently includes cerebral palsy, Down syndrome (Down's syndrome), Huntington's disease (Huntington's chorea), and fetal alcohol spectrum disorder. However, you can also make a withdrawal if you suffer from another life-shortening congenital condition that is expected to reduce life expectancy below the New Zealand Superannuation Qualification Age (currently 65) for persons in general with that condition.

This, and any other documents, or information produced in such an application to be formally verified by oath, declaration, or otherwise.

Permanent move from Australia: If you transfer any amounts from an Australian complying superannuation fund to the Scheme, then:

- If you're retired (as defined in Australian rules) you can withdraw the transferred amount when you reach 60; and
- These amounts do not count towards any annual Government contribution entitlement; and
- You cannot use these amounts to purchase a first home; and
- You cannot transfer these amounts to a third country.

Permanent move to any country other than Australia: If you move somewhere other than Australia permanently, you can apply to withdraw your investment (less the Government contributions and any amounts transferred from an Australian complying superannuation fund):

- Immediately, if you're transferring your investment to an authorised superannuation scheme overseas (as at the date of this OMI, there are no foreign superannuation or pension schemes that have been authorised by the KiwiSaver regulations); or
- One year after you leave New Zealand, in any other case.

Your withdrawal application must include:

- A completed statutory declaration to the effect that you have permanently emigrated from New Zealand; and
- Proof to our satisfaction of your departure from New Zealand (for example, evidence of confirmed travel arrangements, passport evidence, and evidence of any necessary visas) that you have resided at an overseas address at some time during the year following your departure from New Zealand.

We may require these, and any other documents, or information produced in such an application to be formally verified by oath, declaration, or otherwise.

Permanent move to Australia: If you move to Australia permanently, you may be able to transfer the full value of your investment in the Scheme (net of taxes and fees) to an Australian complying superannuation fund.

Your transfer application must include:

- A completed statutory declaration to the effect that you have permanently emigrated to Australia; and
- Evidence of your move to Australia, including confirmed travel arrangements, passport evidence, evidence of any necessary visas, and proof you have resided at an Australian address following your departure from New Zealand.

We may require these, and any other documents, or information produced in such an application to be formally verified by oath, declaration, or otherwise.

You might not be able to make a transfer if your investment is more than the maximum transfer amount under Australian rules. As at the date of this we recommend discussing this with your Australian superannuation fund provider first.

You'll only be able to withdraw your transferred KiwiSaver investment when you reach the Qualifying Age. Any returns on your KiwiSaver investment as well as contributions made while in Australia will be subject to Australian rules.

Australian taxes may apply to transfers to Australian funds. We recommend you talk with a tax adviser.

Death: Upon completion of the "Deceased Estate Withdrawal Application" by your Executor or Administrator, your balance will be paid to your estate.

Withdrawal to meet tax and student loan liabilities on foreign superannuation transfers: If you transfer your investment in a foreign superannuation scheme to the Scheme and are liable to pay New Zealand tax in connection with the transfer, or have New Zealand student loan repayment obligations arising from the transfer, you may make a withdrawal from the Scheme to pay those liabilities (but not for penalties or interest).

The amount withdrawn may not exceed:

- In the case of a withdrawal to meet tax liabilities, the lesser of the tax liability arising from the transfer and your liability for terminal tax in the tax year the transfer is assessed as income; or
- In the case of a withdrawal to meet student loan repayment obligations, the amount of your student loan repayment obligations.

In addition, the total amount withdrawn may not exceed the value of your interest in the Scheme less any \$1,000 kick-start contribution (available to members who joined prior to 21 May 2015) from the Government and any Government contributions received.

The application must be made within two years of the liability for tax or student loan repayments arising from the transfer being assessed. The application must be in the form required by us. It must be accompanied by a completed statutory declaration in respect of the transfer and resulting tax liability, and any other documents or information that we require.

Any withdrawal made will be paid to Inland Revenue, and not to you, if this is possible. Otherwise, it will be paid to you.

Withdrawal to meet the above liabilities is optional and you should consider the impact of such a withdrawal on your foreign superannuation scheme entitlements or under the law of the relevant foreign country.

Withdrawal by court order: We must comply with the provisions of any enactment that requires the release of funds from the Scheme. Such a requirement includes a court order made under any enactment, including a property sharing order made under the Property (Relationships) Act 1976.

Effective date of withdrawal: A withdrawal request will take effect and we will cancel units at the unit price at the relevant time, which is effective the date we accept the approved withdrawal request. Currently we operate on a daily valuation period, where daily means each business day (as defined in the trust deed). Your accumulated balance(s) will be rebalanced back to your chosen investment allocation (unless we notify the member otherwise) on the next annual rebalancing, regardless of any partial withdrawal made from the Scheme.

Annual Government contributions: The Government contributions made to your account cannot be withdrawn until you provide a statutory declaration confirming whether your principal place of residence was New Zealand for the duration of your KiwiSaver membership. If you lived or worked overseas and received KiwiSaver Government contributions, we must refund that portion back to Inland Revenue.

At the same time, the Inland Revenue may pay some Government contributions since the last payment. This process may take up to 15 working days.

QROPS status: KiwiSaver schemes no longer meet the conditions for QROPS status. This means the Scheme is not accepting any UK pension transfers.

There may be UK tax implications if your investment in the Scheme includes amounts transferred from a UK pension scheme and you transfer to another KiwiSaver scheme or make an early withdrawal. The tax laws relating to UK pension transfers are complex. We recommend you consult a professional tax adviser before making a decision to transfer your investment to another KiwiSaver scheme or to make a withdrawal from the Scheme. None of us, the Supervisor, or any of our related parties is responsible for any tax consequences arising.

Switching funds: You can change the Fund or Funds you are invested in at any time, subject to any terms we may have. You must select an investment profile that includes either of the four Funds (or a combination of them), or alternatively the Lifestages option relevant to your investment time horizon. We will then switch your existing KiwiSaver account balance and future contributions to reflect these fund allocations on the effective date of accepting your approved request.

You can do this by using the relevant form on our website.

If you are currently invested in a Lifestages option and select a Fund, you will be moved from the Lifestages option immediately. A notice is irrevocable once given.

A switching notice takes effect as a withdrawal of units from the existing Fund and an application for units in the requested Fund(s) however if you change your mind, you can switch again. Switching amounts may be adjusted, where necessary, for the purpose of any attributed tax or attributed tax credits.

We may require members to provide us with evidence of their identity before giving effect to any withdrawal or switch.

Transfer to another KiwiSaver scheme: You can only be a member of one KiwiSaver scheme at a time but can transfer between KiwiSaver schemes at any time. In addition, members who permanently emigrate to Australia can transfer the full value of their interest in the Scheme (net of taxes and fees) to an Australian complying superannuation fund.

If you join another registered KiwiSaver scheme, or the applicable legislation require it, we will transfer to that other scheme an amount equal to the aggregate unit price of all your units at the relevant time, less any duty or tax payable and any applicable fees, charges, penalties or other amounts which comply with the applicable legislation. Transfers will be made in the manner provided for by the applicable legislation or otherwise on such terms and conditions as we determine from time to time.

We currently do not charge a transfer fee, but we could do so in the future.

Subject to all applicable legislation, we may, following consultation with the Supervisor, but without the consent of the relevant members, transfer an amount equal to the aggregate unit price of affected members' units at the relevant time, to another registered KiwiSaver scheme on such terms and conditions as we determine.

Where you are entitled to a benefit or transfer from another superannuation scheme or registered KiwiSaver scheme we will, on such terms and conditions as we (to the extent permitted by all applicable legislation) determine from time to time, accept a transfer from the other scheme of an amount notified to us or the Supervisor by the supervisor(s) or manager (as the case may be) of that scheme. Any amount received will be treated as if it was a contribution to the Scheme by or for the member.

Suspension of withdrawals: If as a result of a decision to terminate the Scheme, or because of:

- Financial, political, or economic conditions in any financial market;
- The nature of any investment; or
- The occurrence or existence of any other circumstance or event relating to the Scheme, we reasonably form the opinion that it is not practicable, or would be materially prejudicial to the interests of members generally, to realise investments or borrow in order to pay a withdrawal;

then we may, subject to all applicable legislation and us giving prior written notice to the Supervisor, suspend withdrawals. In each case a suspension may last up to six months.

Account closure: If your account has a balance of less than \$500 at any time, and you meet the withdrawal eligibility conditions, we can close the account and then you will cease to be a member of the Scheme. If this is the case, we will give you notice that your membership of the Scheme has ended.

2. The Funds

The SBS Wealth KiwiSaver Scheme PDS offers a suite of four funds:

- SBS Wealth Focused Growth Fund (“**Focused Growth Fund**”);
- SBS Wealth High Growth Fund (“**High Growth Fund**”);
- SBS Wealth Income Fund (“**Income Fund**”); and
- SBS Wealth Cash Fund (“**Cash Fund**”).

To protect members from over concentrated investments, the Focused Growth Fund has mandatory investment limits or ‘Guardrails’. As the Focused Growth Fund is invested in only up to 25 investments, the guardrail is built into our processes and is the primary control to ensure that investment limits are effective.

You provide us with instructions to invest your KiwiSaver contributions as per your Investment Profile. When you establish your Investment Profile, we will ensure your instructions are within the Guardrails meaning that you are never overexposed to the Focused Growth Fund. Our guardrail settings are:

Investment Profile	Maximum investment in the Focused Growth Fund
Self select	25% Focused Growth Fund 75% either a combination of the Cash Fund, Income Fund and/or the High Growth Fund

Each Fund has its own investment objectives and policies, details of which are in the SIPO.

Each Fund also has a quarterly fund update, which details the relevant Fund’s performance, fees, top ten holdings, and key personnel. Additionally, a full listing of the Funds’ holdings is published 6 monthly.

Both these documents can be found at www.disclose-register.companiesoffice.govt.nz (search for SBS Wealth KiwiSaver Scheme) and at www.sbswealth.co.nz.

None of the Funds make distributions of income. Returns to members are by way of changes in the value of their units.

Lifestages: The Scheme also offers a life cycle option based on your age. Lifestages is not a separate investment portfolio. If you choose to invest through Lifestages, your contributions and accumulated balance(s) will be allocated to the four funds we offer in accordance with the table below. Lifestages is the default investment option for the Scheme.

	Option	Age Band	Focused Growth	High Growth	Income	Cash
1	Aggressive	0–49	15%	85%	0%	0%
2	Growth	50–54	5%	75%	20%	0%
3	Balanced	55–59	0%	60%	40%	0%
4	Moderate	60–64	0%	40%	50%	10%
5	Conservative	65+	0%	30%	55%	15%

Lifestages automatically adjusts the allocation of your future contributions in accordance with the table above on 31 July each year, based on your age at that time. For example, if you were aged 49 or less when you first invested in a Lifestages option, 20% of your future contributions to the Scheme will be directed to the SBS Wealth Income Fund from 31 July following the date you turn 50, or on your 50th birthday if you were born on 31 July. This means that your exposure to the Focused Growth Fund and High Growth Fund will drop by 10% each. Your account will also be ‘flagged’ to automatically rebalance your accumulated balance(s) to the above allocations in the annual rebalance event.

We can change the age ranges and the Fund exposures for the Lifestages options at any time and, if you invest in Lifestages, will notify you of any such change and adjust your contributions and accumulated balance(s) accordingly.

Lifestages does not take your personal circumstances into account. If you do not select a Fund, or a combination of Funds, your contribution will be invested into the Lifestages option relevant to your investment time horizon.

For financial advice, please contact a financial adviser or book a review in with one of the SBS Wealth advisers at www.sbswealth.co.nz.

Rebalancing your account: Over time, the exposure of your selected investment profile may shift due to market movements. The investment performance of the Focused Growth Fund, High Growth Fund, the Income Fund and the Cash Fund is likely to differ relative to each other. As a result, if you choose an investment profile that includes some or all of these Funds or if you choose to invest through a Lifestages option, we will rebalance your accumulated balances on an annual basis (unless we notify you otherwise) to ensure that your selected investment strategy is maintained. We conduct an annual rebalancing on or about 15 August each year. The annual rebalance will crystallise a portion of your PIE tax obligation of the funds that switch out, based on the unit reduction.

3. What are the risks of investing?

You do not incur any liabilities (including contingent liabilities) in relation to the Scheme other than the contributions payable to the Scheme and a potential obligation to refund any “shortfall” where a refund is to be made to Inland Revenue.

All investments involve some degree of risk that can affect your ability to recover the full amount of your investment or impact on the level of return.

The risks described in the SBS Wealth KiwiSaver Scheme PDS are broken into:

- General investment risks that may cause a Fund’s risk indicator to move up and down; and
- Other specific risks that we are aware of in relation to the Funds offered in the PDS that may arise which increase the risk to investors’ returns, other than circumstances that are already reflected in the risk indicator.

This document provides further information of investment return risks contained at a high level in the PDS, and outlines some of the other general investment risks that may apply.

Investment return risk: Investment return risk is the risk that returns from the Funds’ investments will be negative or lower than expected, affecting the value of your investment in the Funds.

Investments are often divided into five major investment classes – Cash, fixed interest, property, shares and alternative assets – which generally have differing levels of risk.

Determining how much risk to take should be related to the length of time the investment is for. Generally, if investing for a longer period of time, a fund should hold more growth assets. Returns are expected to be higher and there is a longer time period in which to balance out any negative returns received against positive returns. Lower risk investments such as fixed interest investments are usually more suitable for someone with a shorter time horizon, as greater stability in returns is required with less risk of loss of capital.

Each investment class has different characteristics and specific investment risks that relate to the particular class. For example:

- Cash is suited to short term requirements, but inflation erodes its value. In addition, where cash assets are placed on bank deposit there is a small risk of the bank defaulting, meaning that some or all of the cash may be lost. This is a particular risk for the SBS Wealth Income Fund because its cash investments are primarily made with SBS Bank.
- The value of fixed interest investments is affected by changes in interest rates and there is the risk of the issuer not making the required interest payments and/or not repaying the investment.
- Shares offer the possibility of greater returns and tend to be more accessible and liquid than other securities. However, the risk factor with shares is relatively high, as the value is very much dependent on the performance of the company that issued them, as well as market opinion. There are also extra costs due to brokerage services.
- The performance of listed property investments tends to reflect the performance of the wider property market over the long-term. Over shorter investing durations listed property investments are not as susceptible to a lack of liquidity as direct property investments, but they can experience some volatility. There are also management and other costs associated with listed property investments.

Other general risks that may also affect some or all of your investment are:

Interest rate risk: Interest rate risk is the risk that the Funds’ investment return will fluctuate as a result of changes in interest rates. The Funds’ exposure to interest rate risk primarily arises from investments in interest-bearing instruments such as cash and bonds.

Market Risk: Investments generally are affected by movements in market demand and supply, economic conditions, market sentiment, inflation, interest and currency exchange rates, political events, natural disasters, pandemics, climate change, regulatory changes, and consumer demand. The level of market risk a fund is exposed to primarily depends on the asset classes it invests in. For example, equities, listed property, and listed infrastructure assets are considered to be more risky than cash and cash equivalents and fixed interest assets. However, there are times when some individual assets can be more negatively impacted by a specific market event than other assets. For instance, the value of assets in a particular region may fall more in response to a pandemic or a geopolitical event.

Liquidity risk: Liquidity risk is the risk that the Funds will experience difficulty in realising assets, having to liquidate assets at a time of duress which means a sub-optimal price is realised, or otherwise experiencing difficulty raising sufficient funds to satisfy financial obligations. Low liquidity means it may not be possible to sell assets at the desired time at fair value. This will impact the Funds’ ability to make payments as required, such as paying returns. For more information on how we manage liquidity risk, refer to our Liquidity Risk Management Policy at www.disclose-register.companiesoffice.govt.nz.

Counterparty risk: Counterparty risk is the risk that a party to a financial contract (including an investment contract) defaults or is otherwise unable to fulfil their obligations. If this occurs, the full amount of the investment may not be recovered. The underlying fund managers analyse counterparty creditworthiness by undergoing a due diligence process when selecting counterparties to transact with.

Operational risk: The risk of a technological, process or other failure affecting the Scheme's operations or the financial markets in general. Any risk of technological failure could impact your returns or ability to withdraw from the Scheme's Funds.

Regulatory risk: The risk that the Scheme is affected by future changes to tax, managed investment scheme or other legislation. These changes could affect the Scheme's investments by impacting on the operation of the Scheme, returns and benefits available.

Risk of losing PIE tax status: There is a risk that the Scheme fails to satisfy PIE eligibility criteria, and that failure is not remedied within the period permitted under the Income Tax Act 2007, then the Scheme may lose PIE status and revert to a widely held managed fund taxed at a flat rate of 28%, rather than at your own prescribed investor rate.

Risk of restrictions of withdrawals, transfers or switches: There is a risk that we may give notice to defer withdrawals, or switches between Funds if we determine that it is not practicable, or would be materially prejudicial to the interest of investors generally for us to give effect to withdrawals in respect of the relevant Fund or Funds.

Insolvency risk: The risk that the Scheme becomes insolvent and is placed into receivership, liquidation or statutory management, making it unable to meet its financial obligations. If the Scheme becomes insolvent, then you may not recover the full amount of your investment in the Scheme. However, you won't incur any liability to any person, other than for expenses, fees or taxes payable before the insolvency.

Borrowing risk: The risk that where borrowing has occurred in relation to the Scheme, the lender would have the right to demand payment from the Scheme at short notice. The level of borrowings by the Scheme is subject to certain conditions in the Trust Deed.

Risks relating to the collection and payment of contributions by employers: In most cases employers are responsible for deducting contributions from members' pay and passing them together with any employer contributions to Inland Revenue who will pass them to us in accordance with the Act.

There is a risk that this process may fail or there may be a delay, which could adversely affect some or all of the members employed by that employer.

Other risks that relate to the Funds are:

Currency risk: Currency risk is the risk of exchange rate fluctuations between the New Zealand dollar (the currency in which the Funds are valued) and foreign currencies.

Currency risk will affect Funds where investments are made outside of New Zealand. To help mitigate the potential impact of currency movements, Funds with non-Australian dollar foreign currency exposure use varying levels of hedging. The currency management policy for each Fund is detailed in its SIPO.

Bank counterparty risk: Each Fund's cash liquidity exposure is obtained primarily through investments in unsecured deposits (including redeemable shares) issued by ANZ Bank New Zealand Limited ("ANZ"). New Zealand fixed interest exposure, where applicable, may also be obtained in part by investments with banks. Any event or circumstance affecting ANZ's ability to pay interest on, or repay the principal amount of, those investments could mean that ANZ is unable to make interest payments or is unable to repay those investments when they mature (or at all). Please note that the Deposit Guarantee Scheme does not apply to the Scheme.

Underlying investment manager selection risk: Even though professional underlying investment managers make the investment decisions for the Scheme; the outcomes cannot be predicted with certainty and results will vary accordingly. There is a risk that an underlying investment manager selected by us underperforms, resulting in lower returns than the relevant market or objective.

Service provider risk: The risk that if any of the parties involved in the operation of the Scheme (including the Supervisor and underlying administration or fund managers) fail to perform their obligations, it could adversely affect investors of the Funds.

Governance risk: Governance risk refers to the potential negative impact on investment returns due to inadequate corporate governance and poor management practices within the companies in which a fund is invested. This risk arises from weak governance structures, such as ineffective boards and lack of accountability, as well as inefficient management decisions, including poor risk management and lack of transparency. Additionally, failure to address environmental, social, and governance (ESG) factors can lead to regulatory penalties, legal liabilities, and damage to a company's reputation. Effective governance involves ensuring that company leaders act in the best interests of shareholders and stakeholders, thereby safeguarding and enhancing long-term value.

Further details of our approach can be found in our Responsible Investment Brochure.

Fund Manager risk: You are exposed to our investment style, the relevant fund manager of any managed fund investment, and to the risk that decisions made by the fund manager may not turn out positively. As the managed funds of the Scheme generally invest across a diversified range of countries and markets, this risk is minimised but cannot be avoided altogether.

Related party risk: The Income Fund and Cash Fund can have exposure to SBS Bank through its investments in unsecured deposits.

Investments are made on an arms-length basis and on normal commercial terms. Any event or circumstance affecting SBS Bank's ability to pay interest on, or repay the principal amount of, those investments could mean that SBS Bank is unable to make interest payments, or is unable to repay those investments when they mature (or at all). This could materially affect the assets and investment performance of the fund. The current credit rating for SBS Bank can be found at www.rbnz.govt.nz/regulation-and-supervision/cross-sector-oversight/registers-of-entities-we-regulate/registered-banks-in-new-zealand.

Asset allocation risk: Over a longer time-frame, the selection of an incorrect risk profile or a change in risk profile in response to current market events by a member can have significant impacts on potential retirement income. We have a variety of tools and financial advice providers available to members to minimise this risk for no additional charge.

Concentration risk: The Focused Growth Fund has exposure to a relatively small number of securities that we have individually researched and believe will perform well over the long term. Where a fund consists of a small number of securities, the performance of one or a few securities will have a larger impact on the performance of the overall fund than in a fund that is diversified across a greater number of securities. This concentration of securities could add greater volatility in the short to medium term.

There may also be risks that we are not aware of at the date of this OMI and the PDS that may affect your investment in the Scheme at a future point in time.

Political risk: Governments have the power to change the rules related to investing. A change in corporate tax or capital gains taxes could have a significant impact on the market. Elections and the change of government can also pose risks as a new government might be less or more pro-business in their policies or be willing to spend more to achieve growth. General changes in government policy can also have an impact on individual business sectors.

Political risk can also refer to risks related to an unstable government, such as a country that is dealing with corruption issues. There are also geopolitical risks such as countries going to war.

Inflation risk: Inflation risk is the risk that the value of money will decrease over time due to rising prices. If the return on an investment is lower than the inflation rate, the real value of that investment may decline. For example, savings accounts may offer very low interest rates which may not keep up with inflation, meaning the money held in them could lose purchasing power over time.

Horizon risk: Horizon risk is the risk that an investor's intended investment timeframe is shortened due to unforeseen life events. Long-term investing is a key strategy for building wealth, and changes such as job loss, major purchases (e.g. buying a home), or significant life events may require early access to funds. This can reduce the benefits of compounding returns and impact the overall performance of the investment.

Longevity risk: Longevity risk is the risk of an investor outliving their investment savings. As life expectancy increases, there is a greater need for investment strategies that provide income throughout retirement. While government support such as superannuation may offer a basic level of income, it may not be sufficient to meet all financial needs over the long term. Planning for longevity involves balancing the need for stable income with the potential for investment growth, which may require accepting a certain level of investment risk.

4. What are the fees?

Annual fund charges

The total estimated annual fund charges for each Fund are described in the SBS Wealth KiwiSaver Scheme PDS, and are made up of:

- An annual management fee; and
- Annual administration charges.

These are described further below.

Management fee

We charge an annual management fee which is used to pay for the investment management and operating costs of the Funds as set out in the Scheme's PDS. Under the KiwiSaver Act, any fee we charge must be reasonable.

This fee is calculated as a percentage of the relevant Fund's gross asset value and deducted within the Fund's unit pricing valuation.

We can change the amount of the management fee that we charge. The maximum management fee we can charge is 2% per year of the gross asset value of the Fund (unless the Supervisor agrees to a higher amount). Where management fees are increased we will give affected members 30 days' prior notice.

Administration charges

These charges cover the general management of the Funds e.g. supervisor, legal, registry, unit pricing, custodian and audit costs. Under the KiwiSaver Act, any fee charged by a person (including the Supervisor and administration manager) for services in relation to the Scheme must be reasonable. In addition, under the Trust Deed, the Supervisor's fee must be no more than would normally be charged by a statutory trustee corporation for carrying out the services required by the Trust Deed.

They also cover an estimate of the fund charges of the underlying funds as these are not managed by a related party of us, so we are unable to definitively quantify those charges in advance. We do not expect any difference between our estimate and the actual charges to be material. Actual charges over the most recent completed financial year are available in the latest fund update for each Fund.

There is no maximum amount for these fees, costs and expenses.

These fees (excluding underlying fund fees) and any expenses are charged to us directly, and then recovered by the Funds through the unit price. The Supervisor is entitled to the reimbursement of expenses incurred in performing services in respect of each Fund, and any similar tax or duty payable in respect of its fees. We are entitled to recover the amount of the fee (and any applicable GST or similar tax or duty payable in respect of such fee) as well as any expenses from the Funds as an expense.

Performance fees

We do not currently charge performance fees for any of the Funds.

Distributor fee

If you join the Scheme, we may pay third parties a fee for introducing you to us. We pay these costs from the revenue we receive from the fees which is deducted from, and reflected in the unit price/s of the fund/s you are invested in. The third-party should notify you of the fee percentage and explain whether the fee is a 'one-off' fee or an ongoing fee prior to your onboarding into the Scheme. We pay these costs from the revenue we receive from the estimated annual fund charges that you pay to us. The fee is not an additional fee, it is included in your annual fund charge, which is deducted from, and reflected in the unit price/s of the fund/s you are invested in.

Individual action fees

We do not currently charge contribution, establishment, termination, withdrawal fees or buy/sell costs, but we could charge these or other fees in the future. We are entitled to charge a maximum exit fee on all Funds the greater of \$500 or 5% of the amount withdrawn. If we made the decision to charge these fees or other fees in the future, this would be subject to giving affected members at least 30 days' prior notice.

Trading costs

The Funds and the underlying funds may incur trading costs. Trading costs are the costs of buying and selling investments. Trading costs incurred will affect the value of your investment.

Estimate of annual fund charges

We are required to show the total annual fund charges in the PDS as a percentage of the net asset value of a Fund.

Our estimates are made on the basis of reasonable assumptions about the ongoing level of fees and costs expected to be charged (taking into account the actual fees and costs as a percentage of average net asset value that were charged for the most recent completed financial year as at the date of the Scheme's PDS). The actual fund charges are based on the gross asset value of the relevant Fund each valuation period. As a result, the amount each Fund pays may differ from the estimates shown.

We can change these fees or introduce new fees in the future, subject to the maximum fees set out in the Trust Deed and establishment deeds. We do not need to notify you of fee changes, although all fees charged are required to be reasonable.

Financial adviser advice/administration fees

Your financial adviser may charge an additional fee over and above the total estimated fund charge. Before this fee can be charged, it must be agreed between you and your adviser. You must authorise this fee by completing the Adviser Nomination and Fee Form available at www.sbswealth.co.nz.

5. What taxes will you pay?

Taxation

Your returns are affected by tax. This section is based on our current understanding of New Zealand tax law as it affects you and the Scheme.

Tax law, its interpretation and the rates that apply may change. The application of tax law depends on your circumstances. We and the Supervisor do not take responsibility for your tax liabilities. If you have questions about how tax affects your individual circumstances we recommend you talk to an independent tax advisor.

Tax on employer contributions

Employer contributions are subject to employer superannuation contribution tax ("ESCT") at the following rates:

If your income ¹ in the previous income year was ...	ESCT
\$18,720 or less	10.50%
between \$18,721 and \$64,200	17.50%
between \$64,201 and \$93,720	30%
between \$93,721 and \$216,000	33%
\$216,001 and over	39%

1. Your "income" is your gross salary and wages plus employer superannuation contributions, before deduction of employer superannuation contribution tax, in the previous year (or an estimated amount, if you have worked for less than a year)

Taxable income is taxed at the prescribed investor rate ("PIR") you provide

The Scheme is a portfolio investment entity ("PIE"). This means that taxable income of the Scheme is attributed to you (based on your interest in the Scheme) and taxed at the PIR that you tell us.

We calculate the taxable income (or loss) as well as any tax credits or other amounts attributable to you every day. We then pay tax (if any) on the taxable income that is attributed to you at the PIR you tell us. If you do not tell us your PIR the highest PIR will apply.

To determine your PIR, go to www.ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate.

Your PIR and IRD number

It's important to tell us your correct PIR and IRD number when you join the Scheme. It's also important to let us know if your PIR changes.

If the PIR you tell us is too low, you will be required to pay any tax shortfall as part of the income tax year-end process.

If the PIR you give us is too high (or if you don't tell us any PIR), any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

Inland Revenue may require us to apply a different PIR if they decide you have given us an incorrect PIR. In this case, we have to apply the PIR that Inland Revenue considers appropriate. You can subsequently provide us with a different PIR if you believe the PIR Inland Revenue provided is incorrect.

If you do not provide your IRD number within six weeks, we are required to close your account and treat you as having exited on the last day of the six week period.

Other information about PIRs and taxable income attributed to you

If you have become a New Zealand resident, your PIR should generally be based on your worldwide income and not solely on your New Zealand income.

If you change your PIR, we don't reassess the tax already deducted from your investment. The new PIR will apply to the taxable income (or loss) of the Fund that is attributed to you that has not already been taxed in the current tax year.

Your share of any tax credits for PIE tax losses or other excess tax credits the Scheme receives will usually be allocated to you by the issue of additional units.

Call 0800 727 935 during normal business hours for more information on PIRs and calculating your PIR. You can also visit www.ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate.

How we pay tax on your behalf

We reduce your investment to pay tax on your behalf. We do this:

- On or shortly after 31 March at the end of the tax year; and
- When you withdraw, transfer or switch part or all of your investment; and
- When your account is rebalanced; and
- At any other time when the value of your investment is too low to cover your accrued tax liability.

If we receive a tax refund on your behalf, your investment will increase by the value of the tax refund.

How the Scheme assets are taxed

The Scheme invests in a combination of managed New Zealand PIE funds, overseas managed funds, and directly held New Zealand resident companies and companies resident in Australia that are listed on the Australian Securities Exchange, and directly held companies listed in New Zealand, Australia, or other major countries (e.g. US, UK, France, Switzerland).

The underlying PIE funds will attribute PIE income to the funds, so income and gains or losses will be taxed in the same way as if the underlying investments had been held by the funds directly.

Gains or losses made by a Fund on most holdings of New Zealand resident companies and Australian resident listed companies with franking accounts that are included on an Australian Stock Exchange approved index are not taxable or deductible, although distributions from these holdings are taxable. This may change in the future.

For the overseas managed funds that we invest in, the fair dividend rate method applies. Under the fair dividend rate method, the underlying funds are treated as deriving taxable income equal to 5% of the average daily market value of those investments. Dividends or profits from the sale of these investments are not taxable and losses from sale are not deductible. Foreign tax credits may be available to offset any tax payable (subject to certain limits).

Foreign shares and funds held by the Scheme are generally taxed under the comparative value method (that is, on the basis of the annual change in market value plus distributions and any disposal gains) if they:

- Offer guaranteed or fixed rate returns;
- Are non-participating redeemable shares;
- Are 80% or more invested in financial arrangements or fixed rate shares that are denominated in or hedged to New Zealand dollars; and/or
- Are otherwise determined by Inland Revenue to be debt in economic terms.

Debt securities and other financial arrangements held by the Scheme directly are taxed under the financial arrangement rules using the IFRS taxpayer method, which reflects financial reporting.

Income and gains or losses from other investments held by an underlying fund will be taxable.

Withdrawals from the Funds are not taxed as they are excluded income.

PIE tax advantages

Investing in a PIE can provide tax advantages relative to direct investment. Capital gains made on most investments in New Zealand shares, and most Australian listed shares, are currently not taxable irrespective of the level of trading undertaken. In addition, because the prescribed investor rates at which tax is paid on PIE income are capped at 28%, and no other tax is generally payable by individual members, there can be tax advantages if you are on a higher marginal tax rate.

6. Changes that may be made

Trust Deed: Subject to applicable law, we and the Supervisor may, at any time make any alteration, modification, variation or addition to the provisions of the Trust Deed in either of the following cases:

- If the Supervisor is satisfied that the change does not have a material adverse effect on the members; or
- If the change is approved by, or contingent on approval by, special resolutions (as defined in the Trust Deed) of the members that are or may be adversely affected by the change (or, if applicable, of each separately affected class of members in each Fund).

Investments: Each Fund is invested in “authorised investments”. Each Fund’s particular authorised investments are set out in the SIPO for the Scheme.

We and the Supervisor can change the authorised investments by amending the Trust Deed and amending the investment strategy for a Fund by amending the SIPO.

We can change other aspects of a Fund’s investment policy and objectives by amending the SIPO after giving notice to the Supervisor in accordance with the Trust Deed. We will give affected members 30 days’ notice of any material changes to the SIPO.

Variation and merger of funds: We may vary the terms of any fund, if in consultation with the Supervisor, we determine that the variation would not have a material adverse effect on the interests of the members generally or be contrary to the express provisions of the Trust Deed or any applicable legislation.

This will be effected by:

- Written notice to the Supervisor, if we determine (in consultation with the Supervisor) that the variation is not material;
- Written notice to the Supervisor and affected members, if we determine (in consultation with the Supervisor) that the variation is material.

Where we consider that in doing so, it would be beneficial for the more convenient, economical or advantageous working, management or administration of the Scheme, and would not have a material adverse effect on the interests of the member of the affected funds, we may by written notice to the Supervisor and those members, terminate and merge any one or more funds.

Winding up Funds: A Fund may be wound up if we resolve to wind up that Fund (or every Fund) and give prior notice to the Supervisor.

Winding up Scheme: The Scheme will be wound up if:

- We resolve in writing to wind up the Scheme and give at least 10 days’ prior notice to the Supervisor;
- The last member of the Scheme cancels their units, and we resolve to wind up the Scheme; or
- The Scheme is required to be wound up by operation of law.

7. Who is involved?

Manager

SBS Wealth Limited is the manager of the SBS Wealth KiwiSaver Scheme. We are also the issuer of the membership interests in the Scheme. We are responsible for offering membership, accepting applications, allocating interests to members, managing assets, and administering the Scheme. The Scheme is the only KiwiSaver scheme we manage.

We are a subsidiary of Southland Building Society trading as SBS Bank (www.sbsbank.co.nz).

Supervisor

Trustees Executors Limited is the Supervisor of the Scheme. The Supervisor was incorporated in New Zealand under the Joint Stock Company Act 1860 on 6 July 1881. It was re-registered under the Companies Act 1993 on 30 June 1997. On 1 May 2002 in New Zealand, the Supervisor's status as a statutory trustee company was reconfirmed under its own Act of Parliament, the Trustees Executors Limited Act 2002.

The Supervisor's parent company in New Zealand is Sterling Grace (NZ) Limited, incorporated in New Zealand on 30 July 2003. That company is ultimately owned by the Grace family, through various private trusts.

The Supervisor has been granted a full licence under the Financial Markets Supervisors Act 2011 to act as a supervisor in respect of registered schemes. The licence conditions may change over time.

See www.fma.govt.nz for a full list of these conditions.

The Supervisor's directors can be obtained from the Companies Office website at:
<https://companies-register.companiesoffice.govt.nz>

The Supervisor is responsible for custody of the Scheme's assets and supervising the performance of our functions under the Trust Deed and all relevant law.

The Supervisor may delegate any of its duties, powers or discretions (except for its obligation to supervise the performance by us of our functions under the Trust Deed and the Financial Markets Conduct Act 2013) to any person it nominates, or appoint any person to be its attorney or agent. The Supervisor remains responsible for the acts and omissions of any such person it nominates or appoints.

Trustees Executors Limited has appointed Apex Custodian Nominees (New Zealand) Limited as the nominated custodian of the Scheme's assets.

The Supervisor may be contacted by calling 09 308 7100 or at:

The Client Manager

Trustees Corporate Supervision
Trustees Executors Limited
Level 11, 51 Shortland Street
PO Box 4197, Auckland 1140
or email cts@trustees.co.nz

Indemnities

Subject to meeting applicable required standards of care set out in the Trust Deed and at law, neither we nor the Supervisor are liable for any loss or damage sustained by the Scheme or any member, any act attempted or done in the exercise of, or pursuant to, any trust, power, or discretion vested in either party by the Trust Deed, or any omission or non-exercise of any trust, power, or discretion of the Supervisor or us (as applicable) under the Trust Deed.

Subject to meeting the applicable standard of care under the Trust Deed, we, the Supervisor, and every person acting on behalf of either of us is indemnified out of the Scheme for all liabilities and expenses incurred in the exercise or attempted exercise of the trusts, powers, and discretions vested in us or the Supervisor (as applicable) under the Trust Deed, and in respect of any matter or thing done or omitted to be done in any way relating to the Trust Deed and Scheme. The indemnity extends to payments made where either we or the Supervisor (as applicable) bona fide believe the recipient is entitled to payment, even if this is subsequently found not to be the case. Both we and the Supervisor have a lien or charge over the assets of the Scheme to reflect this indemnity. In addition, the Supervisor is entitled to be reimbursed for attributed tax paid by it by cancelling relevant members' units.

The benefit of the indemnity (and any further indemnity or exclusion given in any application for membership) extends to any investment manager, administration manager, or agent acting on our or the Supervisor's behalf, on the same basis as it is available to us or the Supervisor (as applicable).

Unless we or the Supervisor are in breach of our respective obligations under the Trust Deed (including the required standard of care), both our and the Supervisor's liability (as applicable) is at all times limited to the assets of the Scheme.

Custodian

Trustees Executors Limited has nominated Apex Investment Administration (NZ) Limited to manage its custody obligations.

Unit pricing

We have appointed Apex Investment Administration (NZ) Limited to provide unit pricing services for the Scheme.

Investment manager

As at the date of this OMI, SBS Wealth has not appointed any separate investment managers for the Scheme. SBS Wealth has outsourced some of the Funds investment management functions to underlying fund managers. This could change in the future.

Registry

We have appointed Adminis New Zealand Limited to provide some registry services for the Scheme.

Auditor

The Auditor of the Scheme is KPMG. KPMG is registered as an audit firm under the Auditor Regulation Act 2011. KPMG are independent of us and the Scheme, although some of the partners and staff of KPMG may hold units in the Scheme in their personal capacity.

Independence of Supervisor and any custodians

The Supervisor and Custodian are independent of us.

Disclaimer

Neither SBS Wealth Limited nor its parent SBS Bank guarantees (either partially or fully) the capital value or performance of the securities. The principal and returns of the SBS Wealth KiwiSaver Scheme are not guaranteed or secured in any way by SBS Wealth or its parent SBS Bank, Southland Building Society (or any other member of the SBS Bank group), Trustees Executors Limited, or any other person. Investments in the Funds do not represent deposits or other liabilities of SBS Wealth or its parent SBS, and are subject to investment risk, including the possible delays in repayment and loss of income and principal invested.

Address details

Address details of the Custodian, Auditor or Supervisor may change at any time. For up-to-date contact information call us on 0800 727 935.
