ANZ Investments

Fund Update for the quarter ended 30 September 2026

OneAnswer KiwiSaver Scheme

International Fixed Interest Fund

This fund update was first made publicly available on: 28 October 2026

What is the purpose of this update?

This document tells you how the International Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ANZ New Zealand Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The International Fixed Interest Fund invests mainly in international fixed interest assets. Investments may include fixed interest assets issued by governments or international companies, and cash and cash equivalents.

The International Fixed Interest Fund aims to achieve a return (after the fund charge and before tax) that over the long-term is broadly in line with the relevant market index.

Total value of the fund ($)	2,219,898
Number of investors in the fund	148
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the International Fixed Interest Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

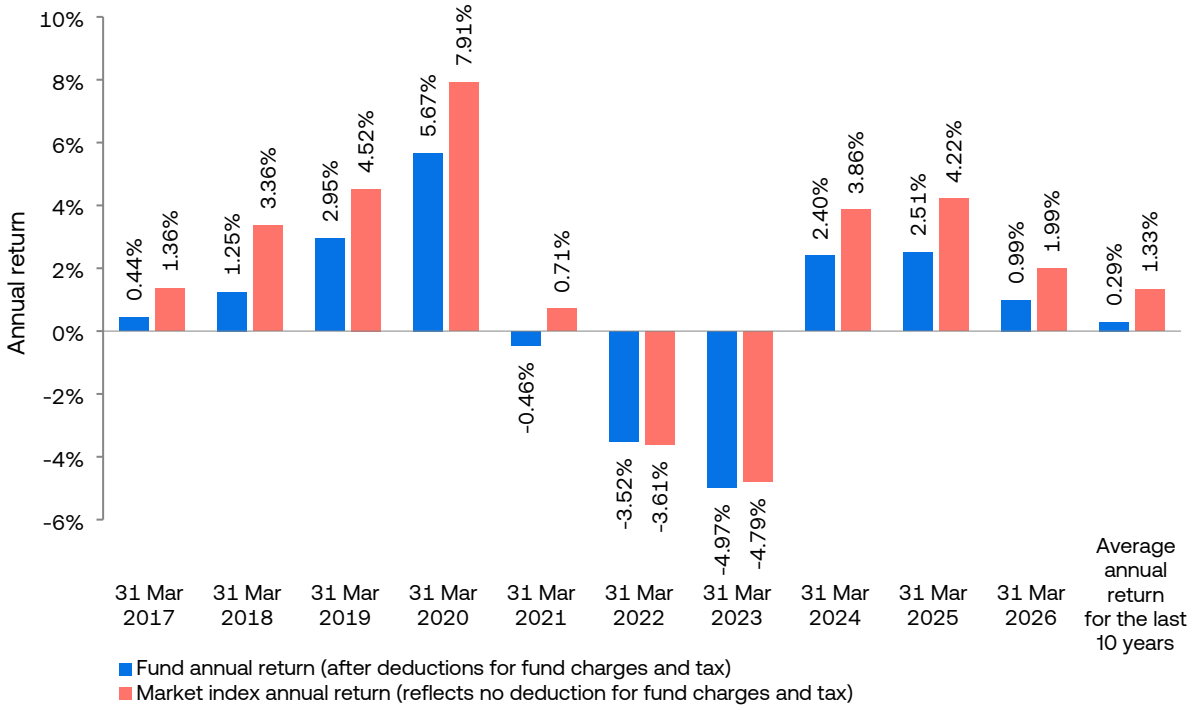

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for charges and tax)	-1.10%	-2.26%
Annual return (after deductions for charges but before tax)	-1.56%	-3.13%
Market index annual return (reflects no deductions for charges and tax)	-0.34%	-2.11%

The market index annual return is calculated using the return of the Bloomberg Barclays Global Aggregate Total Return Index (100% hedged to the New Zealand dollar).

Additional information about the market index is available in the statement of investment policy and objectives on the offer register at disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the International Fixed Interest Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges[1]	**0.50%**
Which are made up of:	
Total management and administration charges	**0.50%**
Including:	
Manager's basic fee	0.45%
Other management and administration charges	0.05%
Total performance based fees	**0.00%**

Other charges	Dollar amount per investor
Other charges	$0

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

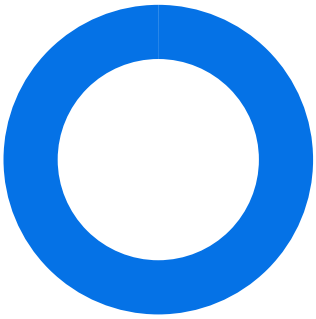

Example of how this applies to an investor

Sarah had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah incurred a loss after fund charges were deducted of $226 (that is -2.26% of her initial $10,000). Sarah did not pay any other charges. This gives Sarah a total loss after tax of $226 for the year.

What does the fund invest in?

Actual investment mix[2]

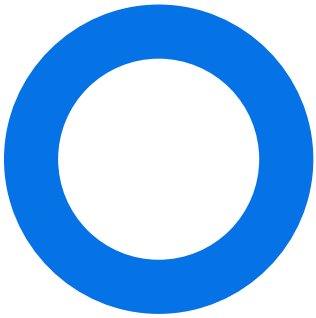

This shows the types of assets that the fund invests in.

Cash and cash equivalents:	0.02%
International fixed interest:	99.98%

Notes

1. Our fund charges are inclusive of GST, where applicable.
2. The target and actual investment mix of this fund and currency hedging information are based on:
   - the cash and cash equivalents held by the fund, and
   - the asset class of the underlying funds in which the fund invests.
   They are not based on the cash and cash equivalents or any other assets held by the underlying funds.
3. The fund may obtain exposure to an asset class via derivatives that are backed by cash and cash equivalents, and/or fixed interest. Where applicable, the top 10 investments table discloses the cash and cash equivalents, and/or fixed interest, not the derivatives.
4. Key personnel not named in previous fund update for the fund.
