Fund update

Cash fund

Mercer KiwiSaver scheme

Quarter ending 30 September 2026

This fund update was first made publicly available on: 29 October 2026.

What is the purpose of this update?

This document tells you how the Cash fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mercer (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013.

This information is not audited and may be updated.

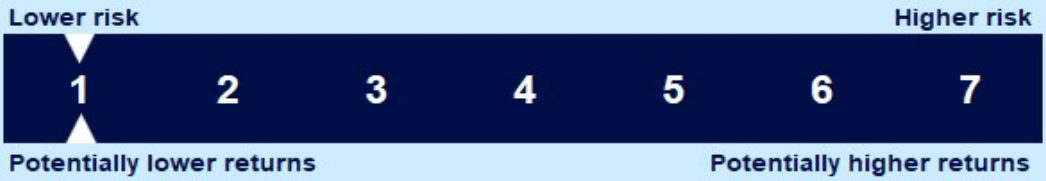

Description of this fund

Invests entirely in cash and short term interest bearing investments. Designed for investors who want no exposure to growth assets or where the funds may be required in the shorter term.

Total value of the fund	$32,298,755
Number of members in the fund	1,112
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Cash fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.riskquiz.co.nz**.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

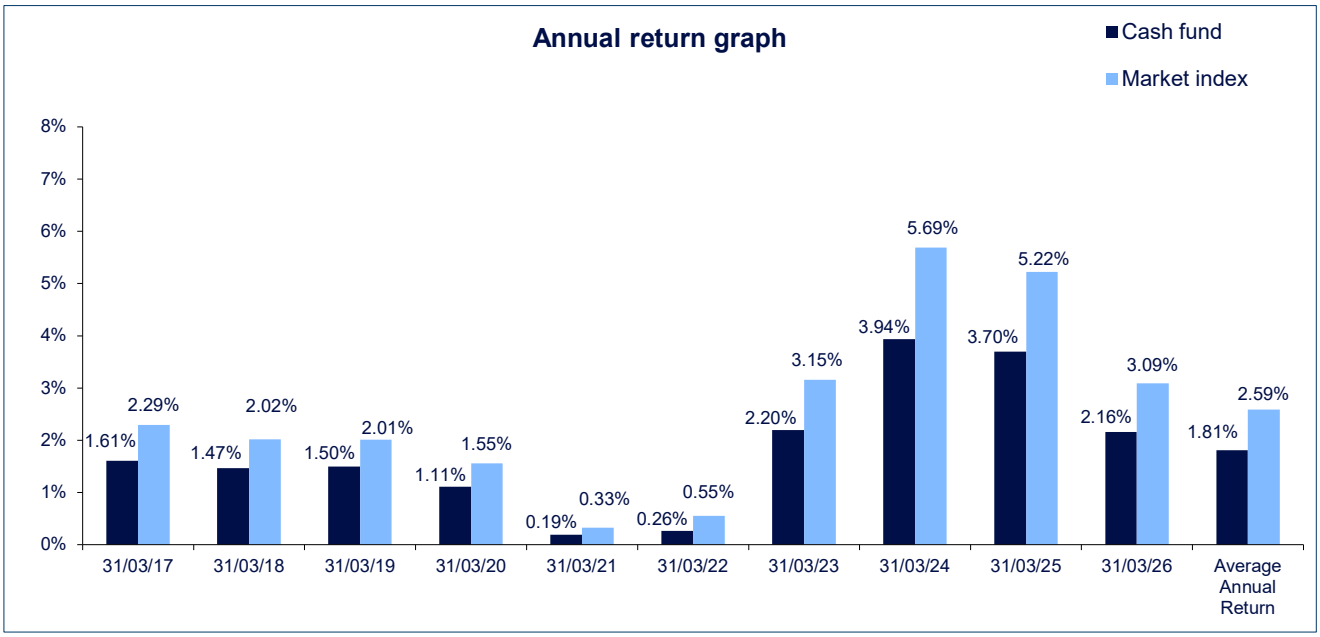

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return *(after deductions for charges and tax)*	2.62%	1.81%
Annual return *(after deductions for charges but before tax)*	3.62%	2.50%
Market index annual return *(reflects no deductions for charges and tax)*	3.75%	2.61%

The market index return is the strategic asset allocation weighted benchmark index return, where the benchmark indices are defined in the Statement of Investment Policy and Objectives. Additional information about the market index is available on the offer register.

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2026.[1]

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Cash fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges[2]	0.33%
Which are made up of:	
Total management and administration charges	0.33%
Including:	
Manager's basic fee	0.28%
Other management and administration charges	0.05%
Total performance-based fees	0.00%

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Mercer KiwiSaver scheme PDS for more information about Scheme fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

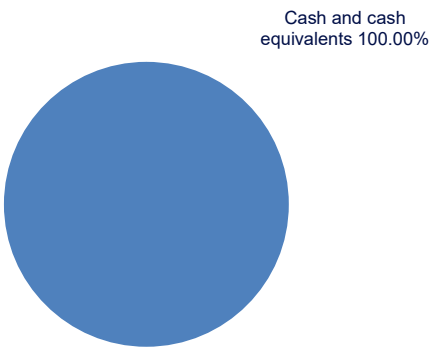

Example of how this applies to an investor

Ben had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of $181.00 (that is 1.81% of his initial $10,000). Ben also paid $0.00 in other charges. This gives Ben a total return after tax of $181.00 for the year.

What does the fund invest in?

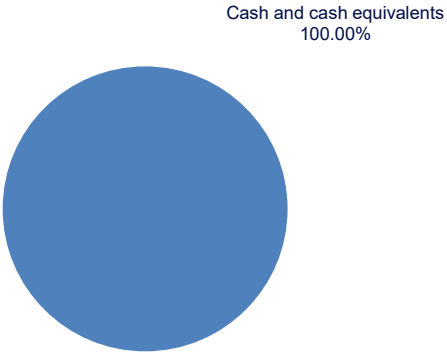

Actual investment mix
