Adminis Funds Limited

This fund update was first made publicly available on 29 July 2026.

What is the purpose of this update?

This document tells you how Morrison Listed Infrastructure – High Conviction PIE Fund (NZD Unhedged) has performed and what fees were charged. The document will help you compare the Fund with other funds. Adminis Funds Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

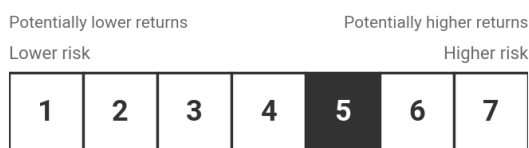

Description of this fund

The NZD Unhedged Fund seeks to deliver total returns, through a combination of income and capital growth, over the medium to long term. It provides exposure to an actively managed, concentrated portfolio of listed infrastructure companies traded on regulated markets, predominantly in OECD countries. The currency exposure of the underlying assets is not hedged to the New Zealand dollar, so returns will be affected by movements in exchange rates. The Fund's investment benchmark is the FTSE Developed Core Infrastructure 50/50 NZD Index.

Total value of the Fund (NZD)	\$0.00¹
The date the Fund started	12 June 2026

What are the risks of investing?

Risk Indicator for the Morrison Listed Infrastructure – High Conviction PIE Fund (NZD Unhedged)²

A combination of actual Fund returns and market index returns have been used to determine the risk indicator for the Morrison Listed Infrastructure – High Conviction PIE Fund (NZD Unhedged) (inception date 12 June 2026), as the Fund has not been operational for the required 5 years. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 June 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2026 these were as follows:

	% of net asset value
Total fund charges (incl. GST)³	1.00%
<i>Which are made up of:</i>	
Total management and administration	1.00%
Including – Manager's basic fee	0.90%
Other management and administration charges	0.10%
Total performance-based fees	0.00%
Other charges	0.00%

See the PDS for more information about the basis on which performance fees are charged. Investors may also be charged individual action fees for specific actions or decisions (for example, a buy/sell spread applies to each contribution/withdrawal). See the PDS and Other Material Information Document (OMI) for more information about fees.

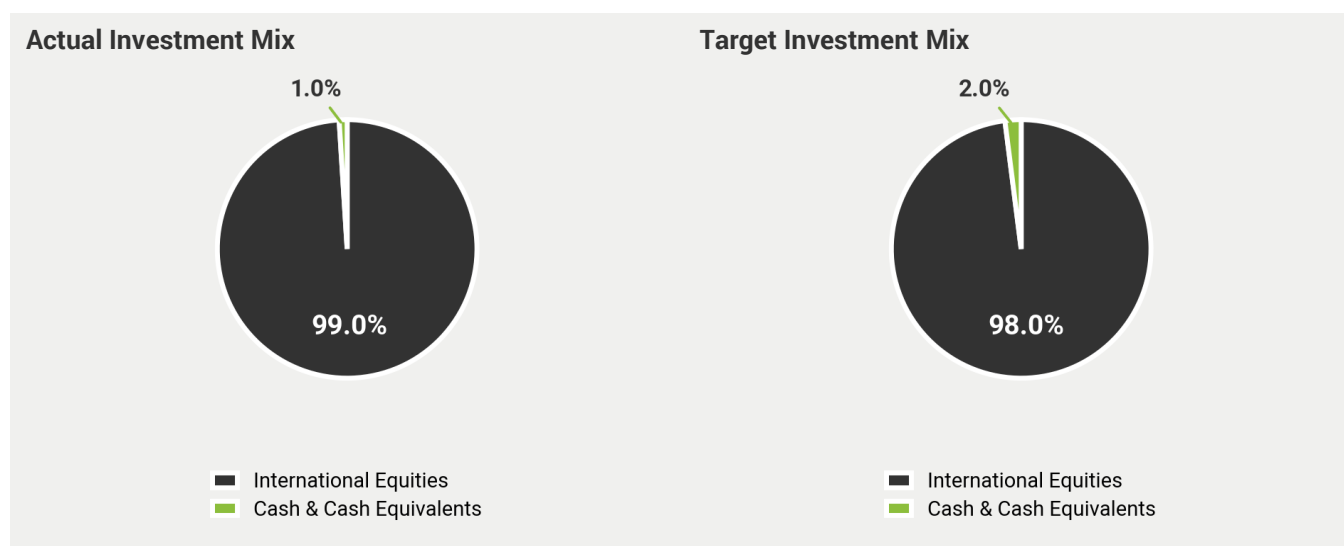

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

James had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, James received a return after fund charges were deducted of \$2,420 (that is 24.2% of his initial \$10,000). James also paid \$0.00 in other charges. This gives James a total return after tax of \$2,420 for the year.
