Mercer NZ Shares Passive Fund
Mercer Investment Funds

Quarter ending 30 September 2026

This fund update was first made publicly available on: 29 October 2026

What is the purpose of this update?

This document tells you how the Mercer NZ Shares Passive Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mercer (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund is a passively managed New Zealand shares portfolio that is designed to track the return of the S&P/NZX 50 Index. Environmental, Social and Governance characteristics are integrated into the underlying investment managers' investment processes. The fund aims to provide a return that closely matches the return of the S&P/NZX 50 Index (on a gross basis and including imputation credits).

Total value of the fund	$32,218,719
The date the fund started	27 November 2017

What are the risks of investing?

Risk indicator for the Mercer NZ Shares Passive Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-profiler.**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

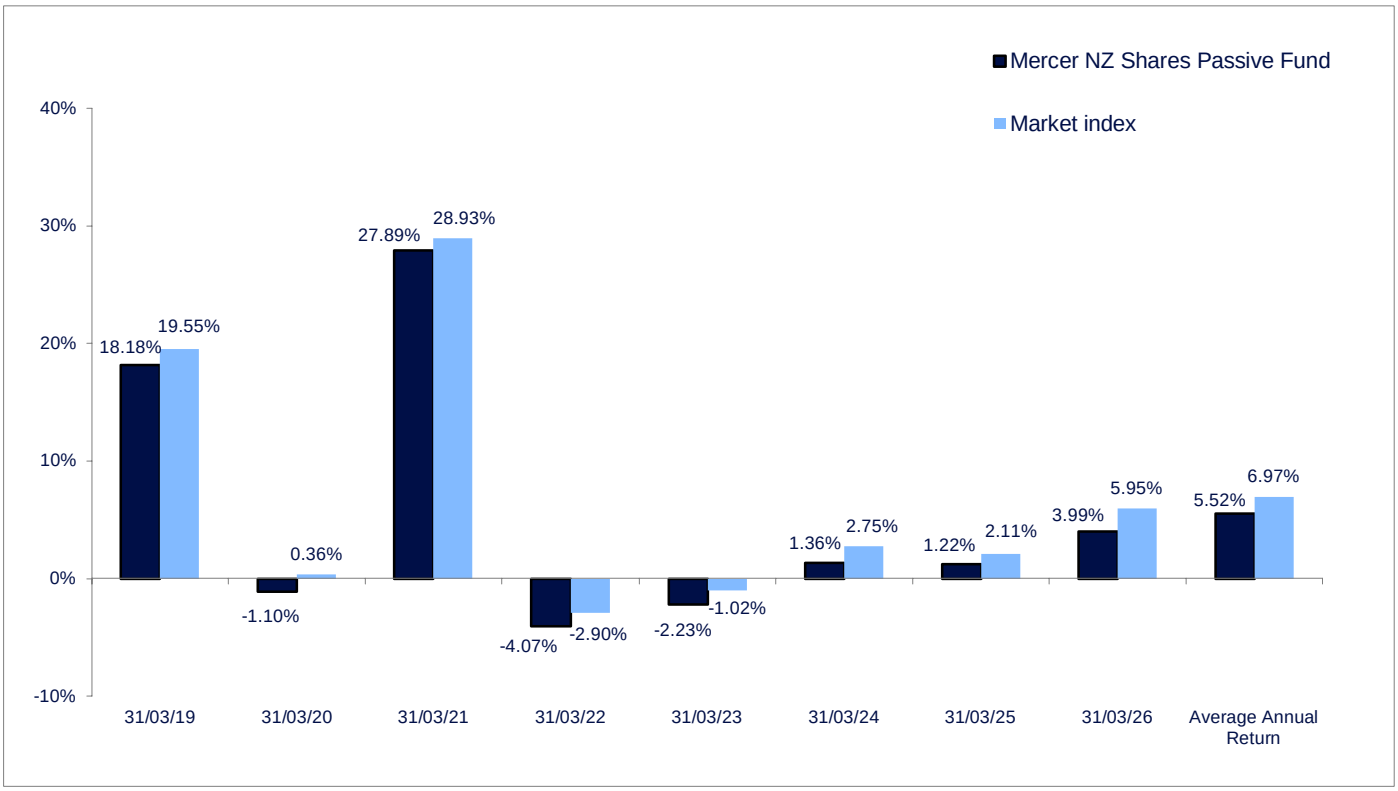

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return[1] *(after deductions for charges and tax)*	0.19%	2.64%
Annual return[1] *(after deductions for charges but before tax)*	1.11%	3.57%
Market index annual return[1] *(reflects no deduction for charges and tax)*	1.61%	4.79%

Annual Return Graph[2]

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mercer NZ Shares Passive Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges	0.44%
Which are made up of:	
Total management and administration charges	0.44%
Including:	
Manager's basic fee (excluding GST[3])	0.28%
Other management and administration charges (including GST)	0.16%
Total performance based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Mercer New Zealand and Australian Shares Funds on the offer register at **www.disclose-register.companiesoffice.govt.nz** for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

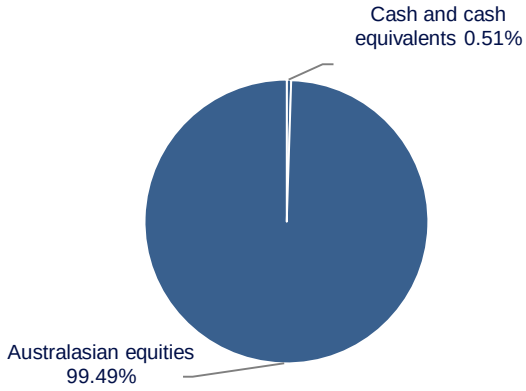

Example of how this applies to an investor

Ben had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of $264.00 (that is 2.64% of his initial $10,000). Ben also paid $0.00 in other charges. This gives Ben a total return after tax of $264.00 for the year.
